Dyadic Developmental Psychotherapy Seminar by Dr. Dan Hughes

All mental health and child welfare professionals, including caseworkers, court personnel, and CASAs, are encouraged to attend this seminar.

Dr. Dan Hughes, the founder of Dyadic Developmental Psychotherapy (DDP), is travelling from London to provide us with an overview of DDP—the only evidence-informed treatment for families with foster or adopted children, ages 2-21, who had experienced significant developmental trauma.

This free, day-long seminar will provide foster care and adoption professionals with critical information about DDP principles. Later in 2018 and 2019, forty (40) qualifying therapists and counselors will have an opportunity to participate in the 56-hour DDP certification.
