

The Answers You Have Been Looking For

With Dr. Dan Hughes

Dr. Dan Hughes has spent over 40 years helping children and youth reach their full potential and reconnect with others in their lives. Dr. Hughes has lectured throughout the US, Europe, Canada, and Australia.

Saturday, March 10, 2018, 9am to 4pm

Location to be shared upon registration

HELP IS ON THE WAY! by Dr. Dan Hughes

Does a child in your care have a diagnosis of:

- mood disorders (depression and bi-polar disorder)
- attention-deficit/hyperactivity disorder (ADHD)
- post-traumatic stress disorder (PTSD)
- reactive attachment disorder (RAD)
- oppositional defiance disorder (ODD)

Like most foster/adoptive/guardianship parents, you may have questions about how to help your child heal. Dr. Dan Hughes has answers!

Dr. Hughes created the only evidence-informed treatment for youth ages 2-21 who have experienced significant developmental trauma. This model, called Dyadic Developmental Psychotherapy (DDP), is practiced around the world. Dr. Hughes is so excited about how DDP can help St. Louis-area youth that he is traveling from London to provide a day-long seminar just for foster/ adoptive/ guardianship parents.
