### Summary of Position

30 Days to Family® is a short term intervention to expand efforts to find safe, appropriate relative supports for children entering foster care. One goal of the program is to assist in meeting the 2008 Fostering Connections to Success and Increasing Adoptions Act's 30-day standard of notifying a child's adult relatives of their option to participate in the care and placement of the child. The initial search is for parents, siblings and grandparents, but the goal is that at least 80 additional relatives will be identified and explored. Because foster care placements can be fragile, the goal is to identify multiple relatives or kin as potential placement providers. Maternal and paternal relatives are explored with equal interest. In all cases, every effort is made to keep siblings together, maintain children in their school of origin, and preserve the child's important relationships with friends and supportive adults. Once the placement provider is identified, family support interventions provided include, assessment of child and family needs, identification of family and community resources, assistance in eliminating barriers to placement with relatives, and creating a network of support services that are documented in a Roadmap to Family.
